

FLORENCIO BEGONIA TRIAL PACK

The vegetative Begonia world has a new major player entering the arena. Syngenta Flowers opens with a solid first series, bred for use in outdoor containers, baskets and landscapes. Florencio is an interspecific *B. boliviensis* type with upright vase shape habit. Expect medium vigor and big flower power in five distinctive colors. Solid garden performance makes this Begonia series a must grow line-up.

We have first-hand experience with the breeder, in trials, and commercial production as rooted liners and finished product. Quality at every level. The Trial Pack includes all five Florencio colors with heavier balance of the two benchmark varieties of Orange and Red.

Florencio Pink

Florencio Red

Florencio Orange
