

Plantpeddler's newest division, Stone Creek Farms, has a mission of improving access to high nutrition, fresh locally grown food. Stone Creek Farms does this by producing leading varieties of Aronia berry like Galicjanka and Viking. Every Aronia plant from SCF is derived from a cutting that goes through an extensive propagation period. This ensures production of a well-rooted, healthy, vigorous starter plant. With our cultural expertise, SCF is your best source for premium quality Aronia liners.

Plantpeddler/SCF has regional spring and fall delivery routes direct to your field. We have aggressive freight rates with FedEx and UPS. LTL carriers are also an option for long distance locations (including Canada). Competitive rates to supply your plants across the country, utilizing our custom wooden pallet shippers.

Complete planting services are available through the Stone Creek Farms Dealer Program. Dealers include:
Aronia Berry Services of Northeast Iowa
and *Mid-Nebraska Aronia Services*.

All orders are subject to availability. For information concerning availability, prices and growing please call 800.827.1654 and ask for Adam or Mike. You can also email your inquiries to adamp@plantpeddler.com or mikeg@plantpeddler.com
